

MAUS Stixx

Art no 1301-1

MAUS Stixx is a sticker that stops fires. An innovation that will fight the fire when the sticker is exposed to a temperature of 380°C. Through a chemical reaction the non-toxic gas will incapsulate the burning particles and put the fire out in the space.

Advantages:

- Non pressurized product.
- Extremely small.
- Demands no advanced installation.
- Requires no maintenance.

User instructions:

1. Remove the adhesive protective sheet on the back.
2. Firmly stick the MAUS Stixx to a flat surface or bracket with the colored side facing downward.
3. Do not bend or cut MAUS Stixx. Control MAUS Stixx regularly to make sure the sticker has not been activated. The parts of MAUS Stixx that has been activated will turn black. You need to replace the activated MAUS Stixx with a new one.

Application Areas

- Electric Cabinets/ Fuse boxes
- Server Rooms (rackskåp, dataskåp)
- White goods (fridge, freezer, washing machine, tumble dryer etc)

SPECIFICATIONS:

MAUS Stixx	Fire Suppression Sticker
Article number:	1301-30
Barcode:	7350015530102
Dimensions:	10 x 5 x 0,5 cm
Weight:	26g±1.5g
Product life:	5 years (8 years shelf life)
Response time:	3-5s
Protected area:	0,13 m ³ (ca 100 x 50 x 25 cm).
Distance from ignition point:	No more than 30cm
Operational Temperature:	-30°C - 100°C
Activation Temperature:	380°C
Units per box:	30

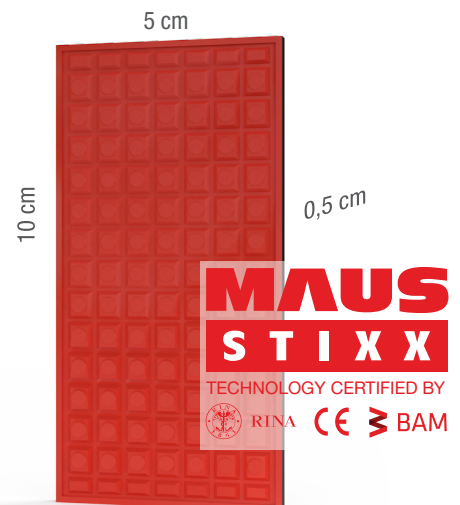

DISPLAY BOX - ART NO: 1301-30

30 x MAUS Stixx (Art no: 1301-1)

30 x A6 Brochures (6 pages)

30 x Date Stickers (to be placed on the cabinet)

Keep in mind:

Place MAUS Stixx no more than 30 cm from where a fire may occur. Since the temperature of a burning flame has a temperature between 600-1400 °C the sticker will activate fast. MAUS Stixx's primary task is to protect the building / vehicle so that the fire does not spread and that the fire is being isolated and stopped within the space. Follow the instructions in the Instruction Manual or contact us for a calculation done by our team.
